

IMPACT REPORT 2022/23

The mission of the Foundation is to provide education opportunities for PSIA-AASI Western instructors looking to enhance their personal growth and further their careers in snowsports. We fulfill this mission to provide education opportunities by offering a variety of scholarships, directly supporting PSIA-AASI Western events, developing creative education materials, and supporting consistent and unified National standards for certification.

HIGHLIGHTS OF 2022/23

This past season the Education Foundation and Western Region crafted an agreement to broaden our efforts to attract large grants, donations and sponsorships. This chapter of the Foundation's fundraising efforts make it easier to raise money to foster Regional initiatives that particularly impact access and inclusion across the west. **We are thrilled to be funding programs that better support women, seniors, and adaptive instructors to continue to grow the snowsports industry.**

The Sodergren Fund supported two members, **Dan Browning** and **Bryan Bartilucci**, to attend Interski in Levi, Finland. The knowledge gleaned will be shared with the Education Staff who will then pass on the experience and information to the Western membership.

The attendance in the **Ski with a Legend** clinics at Convention was a huge success with true Legends leading the clinics such as Michael Rogan, Glen Plake, Robin Barnes, Mike Hafer, El Furtney, Stuart Brown, Bill Hudson, and Tamara McKinney.

In the last eight seasons, we have received **over \$95,000.00 in donations** which has continued to grow through investments. Scholarships and Regional support have been the primary focus of our philanthropic efforts.

Since the Foundation's inception, **over 240 scholarships have been awarded** to support members, clinicians, and examiners looking to grow their professional and personal development.
