This chart attempts to recognize all ISIA Certifications

Note to PSIA-AASI Member Schools regarding equivalence for pay and other administrative functions:

This chart does not entitle the holder of a foreign certification to be granted the equivalent level of PSIA-AASI certification. Holder of equivalent foreign certifications may take the equivalent level of certification with PSIA-AASI or one level above, up to Level 3. For exemption to the Level 3 exam and permission to move straight to the Trainer's process, please submit a letter of request to the appropriate discipline committee.
Level 4 - ISIA Card (highest non-trainer level) should not necessarily be recognized as a trainer level certification, these are listed separately. Should a school not recognize a four-level system, it is recommended to acknowledge Level 4 as equivalent to Level 3
